Credit Shelter Trust	Not Established	Not needed given current combined estate size (~\$3.2M) vs. federal exemption (\$30M for married couple).

Note: Trust purpose: Avoid probate, facilitate smooth transfer of non-qualified assets, maintain privacy. Primary residence (\$650,000) and joint brokerage (\$650,000) should be titled to trust — currently in progress.

M. Optional Disclaimer Trust for Spouse

Role	Name	Relationship	Document
Primary Agent	Sarah Smith	Spouse	Durable POA executed 2023
Alternate Agent	Emily Smith	Daughter	Durable POA executed 2023

Note: As co-managers of a \$2,500,000 portfolio across four accounts (TIAA and Vanguard), the POA ensures continuity of financial management. The POA agent can interact with TIAA and Vanguard on John's behalf. Review and update POA after relocation to Maine, as state law may affect scope.

SECTION 7 — ESTATE PLAN SUMMARY & FINANCIAL PROFILE

. Investment Profile Summary (from IPS & RTQ)

Category	PFA IPS (Penobscot)	RTQ Score (TIAA)	Reconciled Note
----------	---------------------	------------------	-----------------

Risk Tolerance	Moderate	Moderate (Score: 55)	Aligned — consistent risk assessment
Time Horizon	10–15 Years	10–15 Years	Aligned — appropriate for pre-retirement phase
Return Target	5–7% annualized (net)	5–7% expected by client	Realistic expectations aligned with risk profile
Primary Objective	Balanced Growth + Income	Balanced Growth and Income	Aligned
Equity Allocation	55% (target)	55% (suggested)	Current: 58% — minor rebalancing needed
Fixed Income	35% (target)	35% (suggested)	Current: 32% — minor rebalancing needed
ESG Preference	No specific preference noted	No (noted as no constraint)	Aligned
Tax Efficiency	Emphasized in IPS	Noted as priority constraint	Roth conversion strategy under evaluation

Note: IPS and RTQ are well-aligned — risk profile, time horizon, and return expectations are consistent across both documents. Minor portfolio drift (58/32 vs. 55/35 target) should be corrected through rebalancing in tax-advantaged accounts.

. Documents to be Prepared

Document	Priority	Notes
Revocable Living Trust	High	Established 2023 — asset titling in progress (residence + joint brokerage)
Last Will and Testament	High	Executed — includes specific bequest (\$50,000 University Alumni Foundation) and guardian provisions
Healthcare Power of Attorney	High	Executed 2023 — Sarah Smith (primary), Emily Smith (alternate)
Durable Power of Attorney (Financial)	High	Executed 2023 — Sarah Smith (primary), Emily Smith (alternate)
Living Will / Advance Directive	High	Executed 2023 — review with attorney after relocation to Maine
Beneficiary Designations (Retirement)	High	Complete — Sarah Smith (primary); Emily & Michael Smith (secondary) on all qualified accounts
Asset Retitling to Trust	Medium	Primary residence and joint brokerage to be transferred to Revocable Living Trust — in progress
HIPAA Authorization	Medium	Executed — allows agent access to medical records
Donor Advised Fund	Medium	Under consideration — fund with appreciated securities for charitable giving in retirement

. Key Financial & Tax Considerations (2026)

- Federal estate tax exemption for 2026: \$15,000,000 per individual, \$30,000,000 for married couple. John and Sarah's combined estate (~\$3.2M) is well below the threshold; no federal estate tax concern at this time.
- Pennsylvania inheritance tax may apply (3.5% for children). Review after relocation to Maine, as Maine has a \$6.8M state exemption — likely no state estate tax concern either.
- TIAA Roth 403(b) (\$350,000): tax-free growth and withdrawals; no RMDs during lifetime — highly favorable for legacy planning. Consider Roth conversion ladder (ages 65–72) to move Traditional 403(b) funds.
- Traditional 403(b) (\$1,200,000) and Rollover IRA (\$300,000): tax-deferred; RMDs begin at age 73. Combined RMD projected at ~\$70,000/year initially. Roth conversions during ages 65–73 can reduce future tax liability.
- Joint Brokerage (\$650,000): eligible for stepped-up cost basis at death for the deceased spouse's share. Tax-loss harvesting of ~\$30,000 in unrealized losses should be executed before year-end.
- Annual gift tax exclusion: \$19,000 per recipient (2026). Relevant for continued 529 contributions for Olivia (\$40,000 current balance) and Ethan (\$40,000 current balance).
- Term life insurance (\$500,000, TIAA-CREF Life): expires at age 70. With pension income and accumulated assets, review need post-retirement. May reduce or eliminate to reduce expenses.
- Donor Advised Fund under consideration: funding with \$50,000 of appreciated securities provides immediate tax deduction and supports University Alumni Foundation legacy bequest goal.
